Chess / 4X / RTS Games

Miniature Modeling

Philosophy

Science Fiction

About

I'm an extrovert and passionate full-stack developer transitioning from a Managerial career in hospitality. In my free time I enjoy strategy games/boardgames, socialising over drinks/meals or being out and about. I've learned, during lockdown, the basics of web development and sharpened my knowledge by investing in iO Academy's full stack bootcamp. Please visit my portfolio for more projects.

PROJECTS

React/Redux UI

Reddit Client

Custom Reddit Client built in React and using Redux as a state manager consuming the Reddit Json API.

[GitHub](#) | [Live](#)

PHP API

Furniture Store API

API built as a group project during iO Academy's curriculum. Built using Object Oriented Programming and testing our knowledge of design patterns such as Singleton, Data Access Object, PHP Entity Hydration.

[GitHub](#)

Javascript Game

Hawk's Maze Game

Maze game built in Vanilla Javascript using DOM manipulation and mouse event listener and callback handlers to determine the game outcome.

WORK EXPERIENCE

Barista

(06/2021 - 07/2022)

Pret-a-manger/Costa Coffee

Worked in as Full time Barista with the goal of saving enough to invest in the full stack course.

Career Break

(12/2020 - 05/2021)

Portugal

After my contract with Amazon finished went back to see my family over Christmas and unfortunately got stuck over lockdown in Portugal. During this time learned several Web Development Related topics.

Picker

(08/2020 - 12/2020)

Amazon Fulfilment Center

Worked at amazon with the goal of saving money to be able to do a bootcamp while dabbling in my free time with the basics of Web Development.

Restaurant Manager

(07/2019 - 06/2020)

Spoke&Stringer

Responsible for stock control, ordering, staff recruitment, appraisals, seasonal promotions, events organisation and daily operations.
